

ICC Insolvency e-Alert

Be the first to know

Looking for investment opportunities? Want to minimise your exposure to bad debt? Our e-alerts will tell you about insolvencies and administrations up to 10 days before they're announced in the London Gazette or filed at Companies House.

ICC also compiles UK insolvency and CCJ reports every month. Giving you a regular supply of current risk analysis - and greater insight into the financial stability of UK companies today

Instant alerts and updates

To keep you up to speed with what's happening in the business world, we monitor key information sources, including major news sites and auditor newswires. We've also created a series of web crawlers (or spiders) that trawl the internet for notifications and other critical details.

As soon as we're aware of an event, we send an e-alert direct to your inbox. And we update the ICC credit score and credit limit immediately.

Our insolvency e-alerts give you all the information we can get, including:

- Company name and number
- Nature of the business
- Type of event (administration/ liquidation/voluntary arrangement)
- Firm undertaking the work

Better risk analysis

Our monthly reports on UK insolvencies and CCJs highlight how corporate sectors and regions are performing - and how their status is changing. With the latest statistics delivered direct to your desktop, you've got the information you need to monitor risk closely and interpret company risk scores more effectively.

USEFUL FACTS

On a daily basis:

- we amend **90,000** credit scores
- we receive **10,000** updates from Companies House
- **100** companies will go insolvent
