

Stay one step ahead

Want a real-time overview of every single company in your portfolio? With the ICC Ledger you can manage your entire client and prospect base in one location. Automatic updates to the Ledger from our market leading business information database makes sure you know exactly what's going on with your customer base, the moment it happens.

The ICC Ledger is a cost effective, invaluable tool that will save your business time and give you the measure of your overall risk exposure 24/7. Easily evaluate risk scores, credit limits, key financials and adverse information. Create simple and effective management information reports - exported to Excel - on risk exposure to your business.

Build profitable customer and supplier relationships

There is no limit to the number of companies you can add to your Ledger - keep a watchful eye on those you are already doing business with and those you are targeting. Identifying a customer who poses a risk in the early stages could save you substantially. And doing your research before approaching potential clients will tell you exactly how much credit you can safely extend.

Customisable content

ICC gives recommended credit scores and limits based on daily updates and accurate analysis. Want to determine your own risk threshold? You can tailor the score guide to suit your requirements and define your own credit limits at any time.

An instant snapshot of a company's health

Our pre-report indicator uses a simple traffic light colour scheme, defined by your score parameters. You can also input user comments to give a clearer picture of a company.

Choose ICC – it's one of the smartest business decisions you'll make

Quick overview or in-depth analysis

The online Ledger separates functionality in easy to navigate tabs. For further analysis there are a number of options available - you can easily export your Ledger to Excel or for quick review you can save the Ledger summary to PDF. For more detail on a company's status, you can link through to the company ID page or to one of our comprehensive credit reports.

ICC Tracker

You can monitor all updates to your Ledger through the Tracker - an early warning system that alerts you whenever there's a critical change to a company such as a new credit score, CCJs or filed accounts. Working in sync with the Ledger, the Tracker enables you to see which risk group, if any, a company is in.

“ Make sure you know exactly what's going on with your customer base, the moment it happens ”
